PROFESSIONAL SUMMARY

Detail-oriented QA Software Engineer with hands-on experience in Manual Testing, API Testing, and Selenium-based Test Automation using Python. Skilled in designing comprehensive test cases, identifying and documenting defects, and ensuring software quality across the full SDLC. Brings a solid development background in C#/.NET and Python, enabling effective collaboration with development teams. Passionate about delivering reliable, high-quality software products through Agile methodologies and continuous improvement.

TECHNICAL SKILLS

Software Testing

- ▶ Manual & Functional Testing
- ▶ Regression, Smoke & Sanity Testing
- ▶ Exploratory Testing
- ▶ API Testing (Postman, Swagger)
- ▶ Test Case Design & Execution
- ▶ Bug Reporting & Defect Tracking (Jira)
- ▶ SDLC & STLC
- ▶ Agile & Scrum Methodology

Programming & Tools

- ▶ Python (Selenium WebDriver, Pytest)
- ▶ C# & OOP | .NET Core & Web API
- ▶ SQL Server & Data Validation Queries
- ▶ RESTful APIs & JSON
- ▶ HTML5, CSS3, JavaScript
- ▶ Git & GitHub | JMeter
- ▶ Visual Studio | SSMS

PROJECTS & TESTING EXPERIENCE

OrangeHRM – PIM Module Manual Testing Project

2026

Full QA lifecycle coverage for an HR web application — 10 modules tested end-to-end

- ▶ Designed and executed 80+ test cases across 10 modules: Add Employee, Employee List, Personal Details, Contact Details, Emergency Contacts, Dependents, Immigration, Job, Salary, and Attachments
- ▶ Applied Functional, Validation, Negative, BVA, Security, Usability, and Data Validation testing techniques
- ▶ Delivered full QA documentation: Test Plan, Bug Reports, Execution Summary, RTM, and QA Dashboard
- ▶ Tracked all test cases, bug reports, and execution progress following real-world Agile QA workflows

Saucedemo – Selenium Automation Testing Project (Python)

2026

Automated test suite using Selenium WebDriver + Python

- ▶ Developed 15+ automated test scripts covering Login, Product Browsing, and Form Validation
- ▶ Applied Page Object Model (POM) principles for maintainable and scalable test structure
- ▶ Used XPath, CSS Selectors, and explicit/implicit waits for reliable element interaction
- ▶ Managed codebase and tracked issues on GitHub with structured commit history

ShareLane Website – Manual Testing Project

2026

End-to-End QA on a real-world web application

- ▶ Designed and executed 50+ test cases covering Functional, Smoke, and Regression Testing
- ▶ Identified and documented 20+ defects with detailed reproduction steps and severity ratings in Jira
- ▶ Tested core user workflows: Registration, Login, Shopping Cart, and Checkout
- ▶ Ensured comprehensive coverage of defined test scenarios and documented identified defects.

EDUCATION

Bachelor of Computer Science

2020 – 2024

Higher Technological Institute – 10th of Ramadan City, Egypt | Grade: Good | GPA: 2.76

- ▶ Graduation Project: Veterinary Platform with AI-based disease diagnosis — Grade: A

COURSES & CERTIFICATIONS

Software Testing Fundamentals – MaharaTech (Online)	<i>Apr 2026</i>
▸ Manual Testing, Test Case Design, Bug Reporting, API Testing, SDLC/STLC, Agile Testing	
Back-End (.NET Core) Diploma – Route Academy, Nasr City	<i>Jun – Nov 2023</i>
▸ C# (OOP), SQL Server, Entity Framework, Web API, MVC, Design Patterns	
Front-End Diploma – Senior Step Academy, Nasr City	<i>Jun – Sep 2022</i>
▸ HTML5, CSS3, JavaScript	

LANGUAGES

Arabic	English
▸ Native Speaker	▸ Professional Working Proficiency (Reading, Writing, Communication)

SOFT SKILLS

Core Strengths	Collaboration
▸ Attention to Detail	▸ Teamwork & Communication
▸ Analytical & Critical Thinking	▸ Time Management & Prioritization
▸ Problem Solving	▸ Fast Learning & Adaptability

"Driven by passion for quality — committed to delivering reliable, user-centric software experiences."
