

ABDALLAH AHMED MEAAD

QA / QC Engineer | Manual & Automation Testing

Cairo , Egypt | abdallahmead0@gmail.com | +20 1022656255 / +20 1554770480

[LinkedIn](#) | [GitHub](#) | [Portfolio](#) Military Service: Completed

PROFESSIONAL SUMMARY

QA / QC Engineer with hands-on experience in **manual, API, database, performance , Mobile, and UI automation testing**. Experienced in designing and executing test cases, defect reporting, regression testing, API validation, SQL database testing, and Selenium WebDriver automation using **Java**. Familiar with **TestNG, Maven, JMeter, Postman, Swagger, Jira, Git, Allure, and CI/CD**. Background in C#/.NET development supports effective collaboration with development teams and defect investigation.

EDUCATION

Bachelor of Computer Science | Higher Technological Institute, 10th of Ramadan City, Egypt 2024

- Graduation Project: Veterinary Platform with AI-based disease diagnosis (Grade: A)

WORK EXPERIENCE

QC Software Engineer Intern | Array Jul.2026 – sept.2026

- Design and execute detailed manual and API test cases against business requirements, ensuring functional accuracy and consistent UI/UX behavior across the LMS
- Run regression, smoke, and exploratory testing each sprint to catch defects early and protect release stability
- Log, prioritize, and track defects to closure, working closely with developers and product owners to verify fixes
- Contribute to daily stand-ups, sprint planning, review, and retrospective meetings; manage QA tasks in ClickUp

QC Software Engineer Intern | Elsewedy Electric May.2026 – Jul 2026

- Designed and executed test cases across registration, product browsing, cart, and checkout flows to validate functionality and business logic
- Performed functional, UI/UX, and regression testing to ensure a smooth, consistent end-to-end shopping experience
- Identified, documented, and tracked defects through resolution, collaborating with developers to confirm requirement compliance

IT Help Desk Specialist | Al-Ferdaws Eye Center Dec.2024 – Apr.2025

- Provided first-line IT support and resolved hardware, software, and network issues for end users
- Maintained the Innovia Call Center System and documented incidents and service requests

Quality Check Specialist (Product Quality Control Specialist) | Noon Jul.2024 – Nov.2024

- Performed quality inspections, identified discrepancies, and maintained accurate documentation
- Collaborated with teams to improve workflow efficiency and uphold quality standards

Freelance QC & Data Entry Specialist | Khamsat | [My account](#) Apr.2023 – Present

- Delivered Software QA testing, data entry, and document formatting using Excel, Word, and PowerPoint.
- Maintained a 5-star client satisfaction rating through accurate, high-quality, and on-time project delivery.

INTERNSHIPS & CERTIFICATIONS

Software Testing – Hire Ready Program | National Telecommunication Institute (NTI) | Jul.2026 – Present

- ISTQB Foundation Level, Manual Testing, Bug Reporting, Mobile Testing, API Testing, Automation Testing (Selenium/Java), DatabaseTesting, Performance Testing (JMeter), SDLC, STLC, Agile Testing, Soft Skills

Software Testing Fundamentals | MaharaTech (Online) | Apr.2026

- Manual Testing, Test Case Design, Bug Reporting, API Testing, SDLC, STLC, Agile Testing and ISTQB — Project: Testing Sharelane Website

Back-End (.NET Core) Diploma | Route Academy, Nasr City | Jun.2023 – Nov.2023

- C#, OOP, SQL Server, Entity Framework Core, ASP.NET Core MVC, Web API, Design Patterns
- Projects: HR Management System (MVC), E-Commerce RESTful API

Front-End Diploma | Senior Step Academy, Nasr City | Jun.2022 – Sep.2022

- HTML5, CSS3, JavaScript — Project: Responsive Online Coffee Store Website

TECHNICAL SKILLS

SOFTWARE TESTING

Manual & Functional Testing, Regression, Smoke, Sanity, Exploratory Testing, API Testing, Test Case Design & Execution, Bug Reporting & Defect Tracking, SDLC, STLC, Agile & Scrum

AUTOMATION & PERFORMANCE

Selenium WebDriver, Java, TestNG, Maven, Page Object Model (POM), Allure, JMeter, Performance Testing

API & DATABASE

Postman, Swagger, RESTful APIs, JSON, SQL, MySQL, SQL Server, Database Testing, SSMS

PROGRAMMING & TOOLS

C#, OOP, .NET Core, Web API, Git, GitHub, GitHub Actions, Visual Studio, HTML5, CSS3, JavaScript

PROJECTS

1. OrangeHRM – PIM Module | Manual Testing Project / 2026 — [GitHub](#)

- Designed and executed 80+ test cases across 10 modules (Add Employee, Employee List, Personal/Contact Details, Emergency Contacts, Dependents, Immigration, Job, Salary, Attachments)
- Applied Functional, Validation, Negative, BVA, Security, Usability, and Data Validation techniques
- Delivered full QA documentation: Test Plan, Bug Reports, Execution Summary, RTM, QA Dashboard

2. BTMS – Banking Transaction Management System | Database Testing / 2026 [GitHub](#)

MySQL | SQL | Manual Testing | Excel

- Designed and executed 103 database test cases based on business requirements using MySQL and SQL.
- Validated data integrity, constraints, foreign keys, NULL handling, and business rules across 7 database tables.
- Identified and documented 17 defects with reproduction SQL, expected/actual results, severity, priority, and impact.
- Applied Equivalence Partitioning, Boundary Value Analysis, Negative Testing, and Business Rule Testing.
- Built an Excel QA dashboard covering test execution, defect tracking, database schema, ERD, and test metrics.

3. Restful Booker | API Performance Testing / 2026 [GitHub](#)

Apache JMeter 5.6.3 | REST API | JSON | Performance Testing

- Designed and executed API performance tests simulating 20 concurrent users across authentication and booking workflows.
- Implemented JSON Extractor correlation, dynamic variables, Throughput Controllers, timers, and response-time assertions.
- Analyzed performance results using JMeter Summary Reports and request-level execution data.

4. Dojo Web App | Automation & Performance Testing (Selenium + JMeter) / 2026 [GitHub](#)

- Automated registration of **100 new users** using Selenium WebDriver (Java) and generated their credentials into a CSV file.
- Used the registered users in **Apache JMeter** to simulate **100 concurrent users** with login, profile view, shipping submission, and task creation scenarios.
- Implemented **CSV Data Set Config, Cookie Manager, JSON Token Extraction, Bearer Authentication, and Throughput Controllers** with **60/20/20% traffic distribution**.

5. Swag Labs | Selenium Test Automation Framework 2026 [GitHub](#)

Java 21 | Selenium | TestNG | Maven | Allure | GitHub Actions | POM

- Built a Page Object Model (POM) automation framework using Java 21 and Selenium WebDriver.
- Automated Login, Product, Cart, Sorting, and Checkout workflows with reusable page components.
- Implemented data-driven testing, Smoke/Regression test groups, multi-browser execution, and automatic screenshots.
- Integrated Allure reporting and GitHub Actions CI/CD for automated test execution and reporting.

LANGUAGES

Arabic: Native Speaker | English: Very Good

SOFT SKILLS

Attention to Detail • Analytical & Critical Thinking • Problem Solving • Teamwork & Communication

- Time Management & Prioritization • Fast Learning & Adaptability
